CRUSHING ON table light

We love a bit of multifunctional design and Contardi's new Calypso lamp doubles as a place to rest your cocktail. It is the sort of piece that speaks of elegant evenings bathed in a warm glow and is characterised by a smart art deco-inspired shade detailed with elegant black stripes. The stand is lacquered in black with leather details and, curving up, is topped by a marble table. **£1,650** (contardi-italia.com)

INTERNATIONAL DESIGN couturier of style

A masterpiece of modern marquetry and indulging in our love for all things herringbone, this generous table brings smart tailored detailing to dining. Featuring a herringbone wood inlay and a black bevelled edge on the top, the base is an overlapping curve of wood studded with a brass button. **Manto table, from £5,850** (gallottiradice.it)

GOING GREEN

perfect plains

French fabric house Camengo's bright and breezy range of plain textiles are just as earth-friendly as they are lovely. The GAIA collection includes 29 delicate block colours composed of recycled polyester derived from water bottles and food packaging. This airy curtain features GAIA in Snow, Copper and Blush. **£51.50m** (camengo.com)

HERITAGE REMIX

new stitch

Marrying playful checked prints and repurposed items like this ex-army surplus rucksack, Duo-Hue is a new collection of digital printed products made with a unique embroidery stitch to create a colour-morphing effect as the product moves. Developed by Amelia Ayerst, who worked closely with James Dyson on the Dyson car before starting her own business, the products range from rucksacks to eye-catching wall hangings. **Rucksack, £545** (duohue.com)
